(Copyright, 1911, by W. G. Chapman.) SYNOPSIS.

CHAPTER I.—Edith Maitland, a frank, free and unspoiled young Philadelphia girl, is taken to the Colorado mountains by her uncle, Robert Maitland. James Armstrong, Maitland's protege, falls in love with her.

CHAPTER II.—His persistent wooing thrills the girl, but she hesitates, and Armstrong goes east on business with-out a definite answer.

CHAPTER III.—Enld hears the story of a mining engineer. Newbold, whose wife fell off a cliff and was so seriously hurt that he was compelled to shoot her to prevent her being eaten by wolves while he went for help.

CHAPTER IV.—Kirkby, the old guide who tells the story, gives Enid a package of letters which he says were found on the dead woman's body. She reads the letters and at Kirkby's request keeps

CHAPTER V.—While End is bathing in the river in fancled solltude, a big bear appears on the bank and is about to plunge into the water to attack the girl when a shot rings out and the animal is killed by a strange man.

CHAPTER VI.—Enid is caught in a storm which wipes out her party's camp. She is dashed upon the rocks and injured. The strange man who shot the bear finds her unconscious and carries her to shelter.

CHAPTER VIII.—No trace of her is found and word is telegraphed to her father. James Armstrong is asking the father for Enid's hand when the telegram arrives expressing the belief that the girl is dead. Armstrong says he will find her, and Maitland agrees to their marriage if he succeeds.

CHAPTER IX.—Enid regains consciousness in the hut of the man who had rescued her from the bear, and had dresses her foot which had been severely injured.

CHAPTER X.—The girl spends a fairly comfortable night, but her host in the next room a restless one as he lives over days that are gone. He has some secret in his life.

CHAPTER XI.—Morning finds Enid re-freshed and ready for the substantial breakfast the man has prepared for her.

CHAPTER XII.—Her rescuer goes in search of Enid's party, but returns at nightfall alone and unsuccessful. In his absence she discovers books which show him to be a man of education.

CHAPTER XIII.—Enid finds that she must remain in the mountains until her foot is better and the mountain trails passable, or permit her companion to leave her alone for a week while he goes in search of help. She decides to have him remain with her.

CHAPTER XV.—The man comes to a ealization of his love for her, but natur-ily in that strange solitude the rela-ions of the girl and her rescuer become unatural and strained.

CHAPTER XVI.—The stranger tells of a wife he had who is dead, and says he has sworn to ever cherish her memory by living in solitude. He and Enid, how-ever, confess their love for each other. She learns that he is the man who killed his wife in the mountain.

CHAPTER XVII.—Enid discovers the writer of the letters to Newbold's wife to have been James Armstrong. Newbold decides to start to the settlement for

CHAPTER XVIII.—The man is racked by the belief that he is unfaithful to his wife's memory, and Enid is tempted to tell him of the letters in her possession.

CHAPTER XIX.—Armstrong, accompanied by Kirkby and Robert Maitland, start out on a systematic search for some trace of Enid. They find a note that Newbold had left in the deserted cabin, and know that the girl is in his teaching.

He could not tell when the notice, which he had examined carefully, was written; there was no date upon it, but he could come to only one conclusion. Newbold must have found Enid Maitland alone in the mountains very shortly after her departure, and he had her with him in his cabin alone sapiently, "that gener'ly gits there, for at least a month, Armstrong gritted his teeth at the thought. It was quite fairly dazzled by the bright light of still, too. There were clouds on the mountain top heavy with threat of range, which struck him full in the wind and snow.

The way was not difficult, the direction of it, that is. Nor was the going very difficult at first: the snow was frozen and the crust was strong enough to bear him. He did not need his end of the trail, the lake was the snow shoes, and, indeed, would have had little chance to use them in the narrow, broken, rocky pass. They would have come on later, of course; but he wanted an hour or two in private with End and Newbold without any interruption. His conscience was not clear. Nor could he settle upon a course of action.

How much Newbold knew of his former attempt to win away his wife. how much of what he knew he had told Enid Maitland, Armstrong could not surmise. Putting himself into Newbold's place and imagining that the engineer had possessed entire information, he decided that he must have told everything to Enid Maitland as soon as he had found out the quasi relation between her and Armstrong. And Armstrong did not believe the woman he loved could be in anybody's presence a month without telling something about him. Still, it was possible that Newbold knew nothing,

and that he told nothing therefore. The situation was paralyzing to a man of Armstrong's decided, determined temperament. He could not decide upon the line of conduct he should pursue.
